

REMARKS/ARGUMENTS

The amendment herein finds support in the specification at page 7, paragraph [0019], line 13, plus the fact that the term "nano" refers to objects in the nano-sized range, which intuitively indicates a lower limit of approximately 1 nanometer. No new matter is presented, and this amendment obviates the sole ground for rejection in the Office Action. Accordingly, reconsideration of the application is once again respectfully requested.

Respectfully submitted,

M. Henry Heines
